

Station Activity:

- 5 W's (+1)

- Variables

HW: p. 17: 9, 10

p. 18: 23, 24

# Population v. Sample

- Population should be as specific as your sample
- We try to find things out about the sample to say something about the population

# Data Analysis:

- Make pictures
- To make good pictures,  
we need to organize data
- Frequency Table → for  
categorical variables
- Records categories and  
totals

Gender	Count	one person left, another joined
Male	<del>12</del> 13	
Female	<del>18</del> 17	

Party Affiliation	Number
Liberal	7
Moderate	11
Conservative	12

Cell Phone Type	Count
iPhone	19
Droid	8
Neither	3

- Relative Frequency Table
- Percentage of each category
